

Remedies for <https://fontawesome.com/>

Remedies for <https://fontawesome.com/>

- Define a strict Content-Security-Policy; disallow inline scripts; use nonces/hashes.
- Use Permissions-Policy to restrict powerful APIs (camera, geolocation, etc.).
- Set up performance budgets and monitor Core Web Vitals in production.
- Automate security headers and TLS checks in CI/CD.
- Run accessibility audits (e.g., axe, Lighthouse) on key templates.
